Personal Profile

As a Full Stack Developer, I prioritize building accessible and engaging applications with a focus on creativity, problem-solving, and teamwork. At Q4 Inc., I leveraged my solid web design skills and passion for putting the customer and user experience first to build Investor Relations websites that exceeded expectations. I am dedicated to delivering high-quality work that drives success and am committed to constantly improving my skills and knowledge in order to stay ahead of the curve.

Experience

Q4 Inc.   **December 2021 – December 2022**
Web Developer   *Hamilton, ON*
- Developed and maintained Investor Relations website using CMS, ensuring consistent branding and design. Created mock-ups and prototypes according to the design and client requirements from Figma.
- Designed and customized website widgets and modules using jQuery and SCSS, improving website functionality and user experience. Optimized application performance by reviewing and updating old code.
- Collaborated with content developers and project managers, utilizing tools such as JIRA and Confluence, to plan and execute website updates and bug fixes.
- Provided client support and managed content updates in a timely manner to ensure website design and press releases/events were up to date.

Airsource Communication   **August 2018 – August 2020**
Sales Representative   *Winnipeg, MB*
- Provided a full range of mobile communication services to customers and small business owners, resulting in increased customer loyalty.
- Assisted with the training and development of existing and new team members to achieve branch sales goals, fostering team unity.
- Successfully resolved cell phone and network issues by providing helpful suggestions and clarifying questions, resulting in positive customer feedback.
- Demonstrated strong problem-solving skills in addressing application use and software support issues for customers.

Education

Juno College   **Mar. 2021 – Sep 2021**
Web Development Immersive Bootcamp,   *Toronto, ON*

University Of Manitoba   **Aug. 2014 – Feb 2018**
Bachelor of Science   *Winnipeg, MB*

Projects

Fitness App | *TypeScript, React, Tailwind CSS*   **January 2023**
- Built responsively using TypeScript and React that demonstrate information and allow user to submit questions.
- Integrated module section like carousel by creating custom hook and using React packages.
- Styled the application using Tailwind CSS and its plugins.

Social Media App | *React Redux, Material UI, Express, MongoDB, Node.js*   **January 2023**
- Developed with MongoDB, Express, React and Node.js(MERN).
- Incorporated user authentication data in mongoDB to achieve registering with uploading a profile image.
- Designed fully responsive and dark mode application with Material UI.

Cloth Shopping | *TypeScript, React Redux, SCSS*   **October 2022**
- Produced E-commerce application that displays products in categories, utilized Redux to manage states.
- Enabled login and checkout functionality using Firebase and Stripe.
- Implemented styled-components to maintain the application theme and customize modules.
